Second Brain Builder ★ AI enthusiast ★ Leadership Coach

Langdock

- **collaborating on prompts** in our team to create group coaching exercises
- fast **switching LLMs** (ChatGPT, Claude,...)
- ensure GDPR and LLMs hosted in Europe
- maintaining **my prompt library**
- **working with** a collection of **documents**

The screenshot shows a 'Prompt library' interface with a search bar and a list of prompts. The prompts are organized into folders: 'Private 2' and 'Workspace 3'. Each prompt entry includes a title, a description, and metadata such as star ratings and user names.

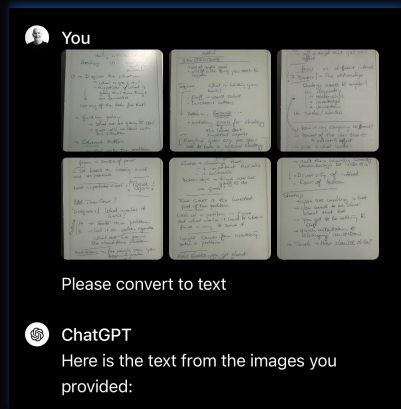

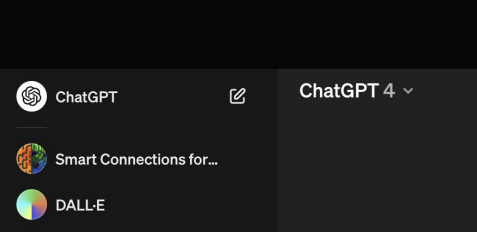

Folder	Prompt Title	Description	Stars	User	Actions
Private 2	LinkedIn storytelling	I want you to act like an experienced social media expert and copy...	★ 1	You	🗑️ ...
Private 2	LinkedIn Post v2	I'll provide you my notes for a LinkedIn post in a next statement. Act lik...	★ 1	You	🗑️ ...
Workspace 3	LinkedIn hooks template	"Act like a social media copywriter. You are skilled in copywritin...	★ 1	You	🗑️ ...
Workspace 3	Summarize text as a bullet point list	Please summarize key insights from the following to...	☆ 0	You	🗑️ ...
Workspace 3	LinkedIn post	I'll provide you my notes for a LinkedIn post in a next statement. Act like a...	★ 1	You	🗑️ ...

Below the list, a 'Send a message...' dialog box is visible, containing input fields for 'Name', 'File', and 'Image', and a blue 'Send' button.

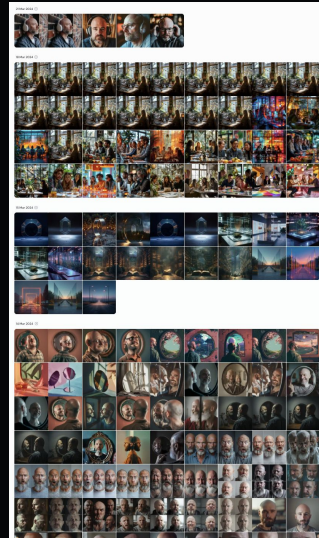

ChatGPT 4

- **image to text** conversion
- translations
- **voice driven chat** conversations
- working with **GPTs** - mainly SmartConnections to my Second Brain
- **create MidJourney image prompts**

Midjourney (Combined with InsightFaceSwap)

- **create cover images** for my LinkedIn posts
- **extend my thoughts** with images
- generate images for our group coaching sessions

Julius.AI

- run **data analysis**
- create **graphs** based on data
- **Learn python data analysis** - great to get hints on how to run data analysis on my own

Post Statistics - Tab...
spreadsheet

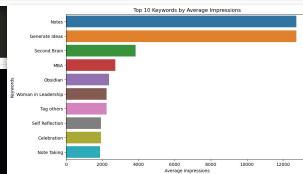

Please analyse my post titles. What are top 5 topics that I write about?

</> Show Code ^

Python

```
1 import pandas as pd
2
3 # Load the dataset
4 df = pd.read_csv('Post Statistics - Tabellenblatt1.csv')
5 print('Data loaded successfully.')
6 print('First few rows of the dataset:')
7 print(df.head())
```

Blinkist AI

- **find matching books** for a topic I'm looking at
- **get further recommendations** based on a book I'm just reading and want to explore further

What should I read about taking notes and growing knowledge?

Hi there! Let me see what I can find for you:

How to Take Smart Notes by Sönke Ahrens is a fantastic choice for improving your note-taking skills. This book introduces the concept of the Zettelkasten method, which helps you connect ideas and retain knowledge better by organizing your notes effectively.

Learn Better by Ulrich Boser is another great read for enhancing your learning techniques. This book dives into the science of how we learn and provides practical strategies to help you absorb information more efficiently and effectively, ultimately boosting your knowledge retention.

How to Take Smart Notes

Gemini Advanced

- **fine tuning my LinkedIn posts.** (The interaction actually feels smoother and I like the improved way of proving me hints for improvements.)
- decouple from openai LLM and get a **different approach**
- soon much **larger context windows** and tough **integration in my google suite**
- integrated in Google mobile - for **scanning pictures and extracting texts** and translations

Smart Connections for Obsidian

- work with **AI directly in my Second Brain** maintained in Obsidian
- **analyze connections** of my current writing with further thoughts
- chat driven **search**
- via it's GPT - **run thinking sessions with my SecondBrain**

Beta Codex - 12 principles

Die zwölf BetaCodex-Prinzipien - erlläutert.

01 Teamautonomie: Sinnkopplung statt Abhängigkeit

Wer schnell und klar auf den Markt reagieren will, muss sich auch daran orientieren. Die klare Einsicht, dass ein Unternehmen durch den Markt gesteuert wird und nicht durch eine zentrale Unternehmensführung, wird in diesem Prinzip abgebildet. Konkrete Anwendung findet es in der Wertschöpfungsstruktur (auch [Zellstruktur](#) v, siehe Teil 3 - [Organisationspsychik](#) v).

02 Föderalisierung: Zellstruktur statt abgeteilter Silos

Zur Ausrichtung am Markt benötigt es kleine, autorisierte und cross-funktionale Teams. Es gibt Teams, die direkt mit dem Markt agieren (Peripheriezellen) und es gibt Teams, die den Peripheriezellen dienen (Zentrumszellen). Alle Teams müssen in der Liga sein, umgehend und sinnvoll auf die Bedürfnisse jeweils ihrer Kunden eingehen zu können. Der Aufbau der Zellstruktur, das Zellstrukturdesion (Teil 4 dieser Einführung) ist eine zentrale Sozialtechnologie im BetaCodex-Universum und elementar für zeitgemäßes
